

Hush!

Where Is the Cat?

'Kit?' I sit up
in bed with
a shock. My
cat is not
there!

I dash to the gate and yell for Kit. Then I get a soft mew. Is she in the bush?

Was that mew
from the big
pot? Kit likes
to sit on top
of it. But she
is not here.

She is not
by the big
blue pot.

Where can
she be?

I shove my
hand in the
bush. Kit
is not in it!

I dash to the
front of the
house when I
hear a mew.
Hush! Is it Kit?

It is in the
house! I rush
back in. I look
under the
cupboard. Dust,
but no Kit.

I dash up and
check the top of
the cupboard. A
band and a
book, but no Kit.
She is not up on
top!

I rush to the
shelf and look
and look. No
Kit is on the
shelf. I flop in
a big huff.

My bed! Kit
loves my bed.
I dash to it.
Is she in the
dim gap?

She is not
there. Just
where can
she be?

There she is!

Kit is under

the blanket,

snug as can

be. What a

shock!

Hush! Where Is the Cat?

Kit the cat has vanished from her pillow, leaving only a tiny dent and one white whisker behind! Where could she be hiding? Is she curled up in the big blue pot, tucked high on the cupboard, or giggling somewhere just out of sight? Follow along as one very worried kid hunts high, low, and everywhere in between to track down a sneaky little cat. This decodable reader practices the 'sh' sound in words like 'shake,' 'shove,' 'bush,' 'dash,' and 'hush.'

bush, dash, hush, rush, shake, she, shelf, shock, shove

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
