

AN UNOFFICIAL MINECRAFT ENCYCLOPEDIA

MINECRAFT ECOLOGY

HUSKS

AT

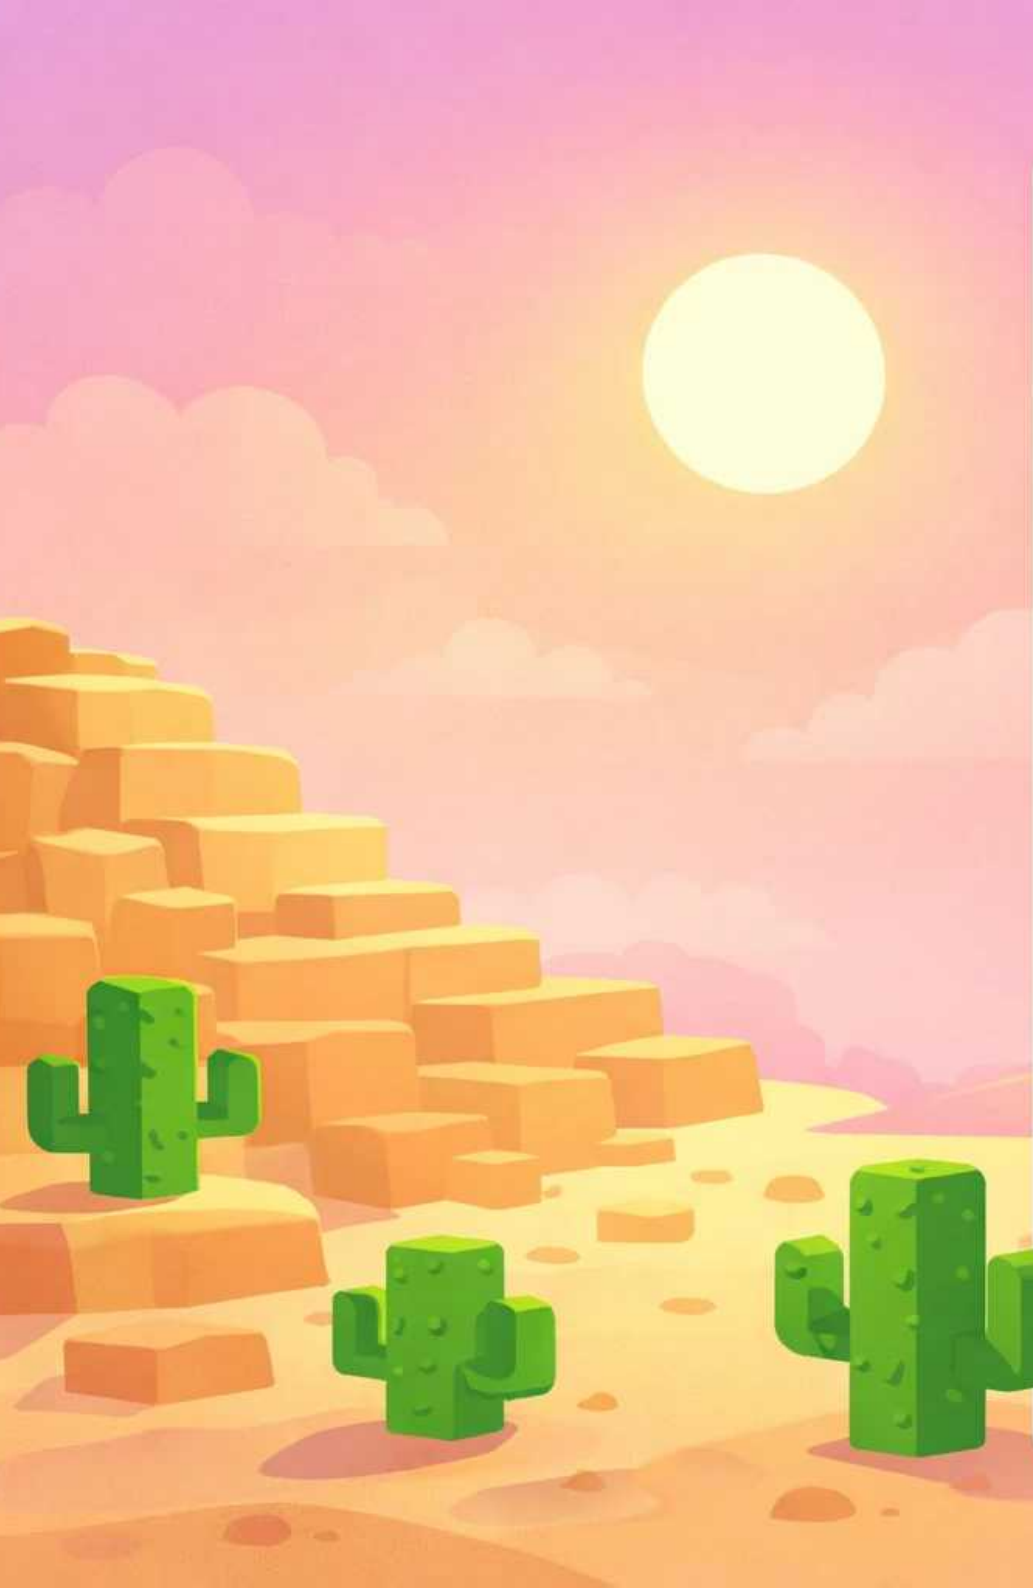

NIGHT

The hot
sand is
bright in the
light of day.

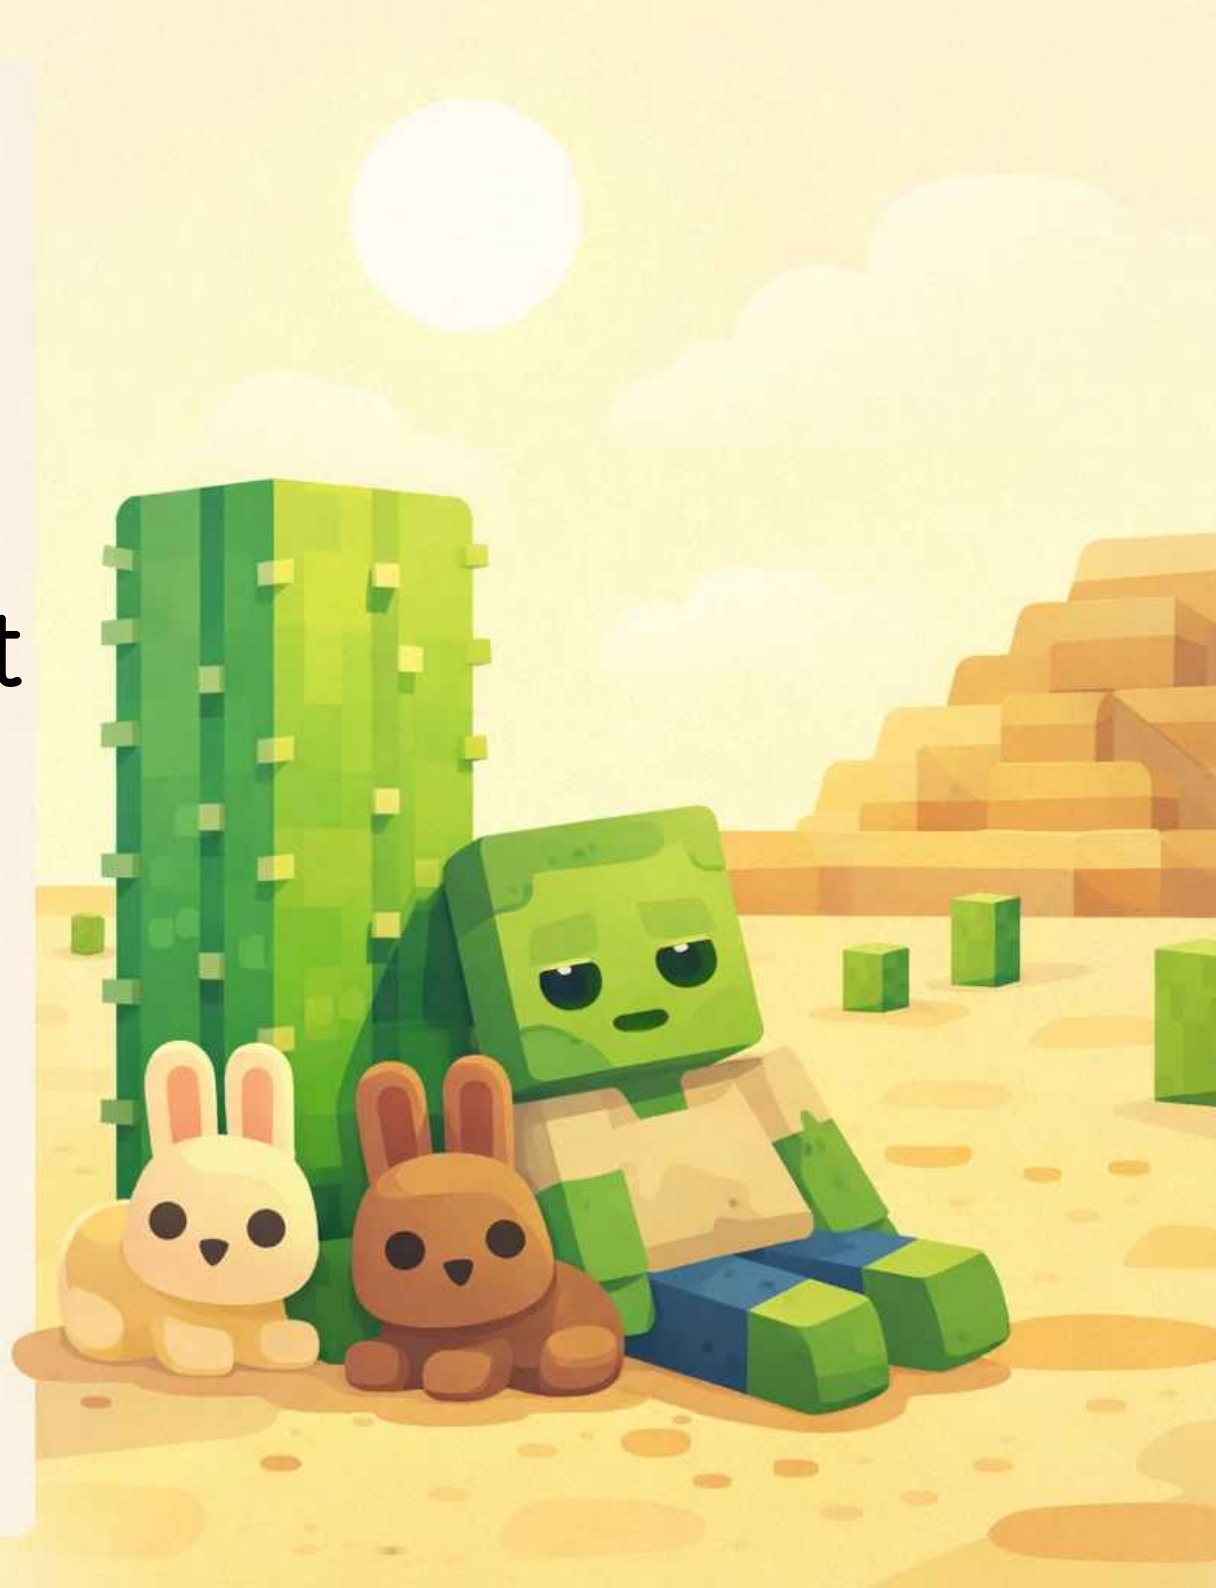

Not much
stirs when
the sun is
high in the
sky.

The sun is
bright, and
there is little
to drink.

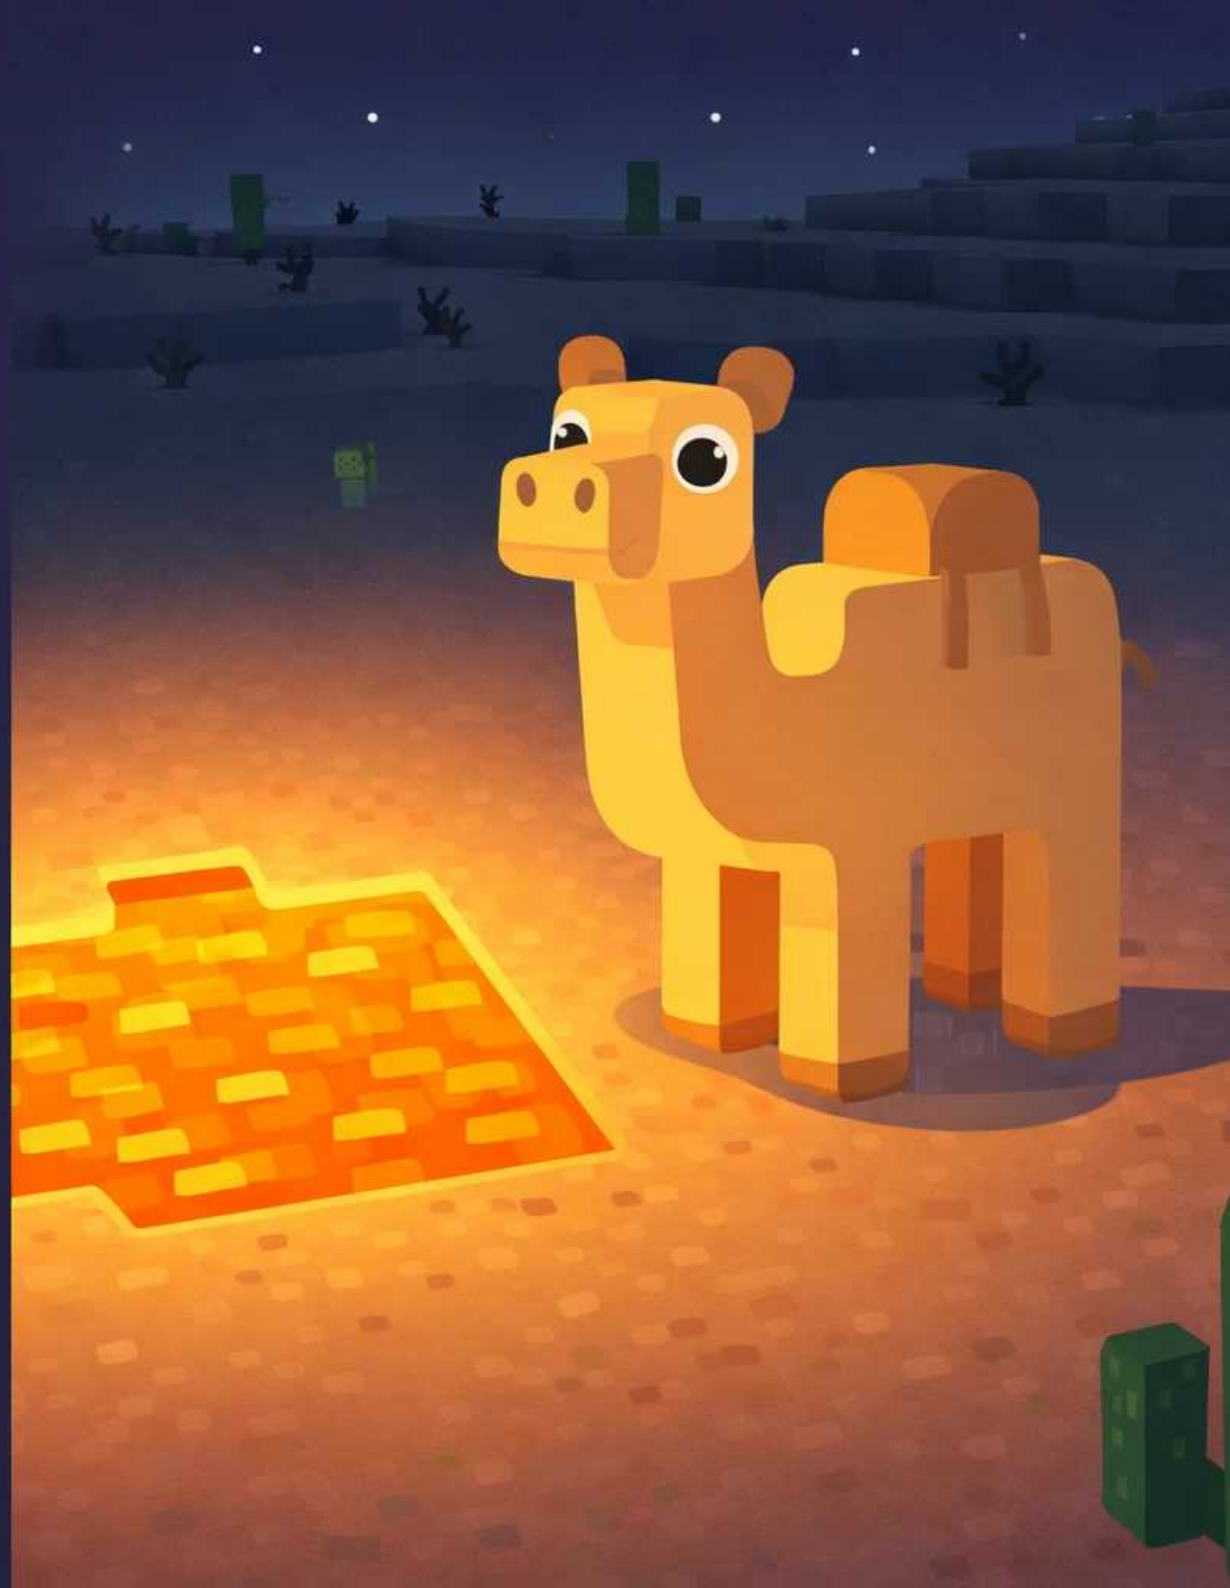

When the light is
too bright,
desert mobs rest
in the shade.
They keep still
and stay cool.

Deep in the sand,
things hide from
the sun. They lie
low all day long.
When the light
goes, they creep
out at night...

When night falls,
a bright glow
lights up the
sand. A camel
stands close to
the warm light.

But when
light comes
back, you
can see
grand sights!

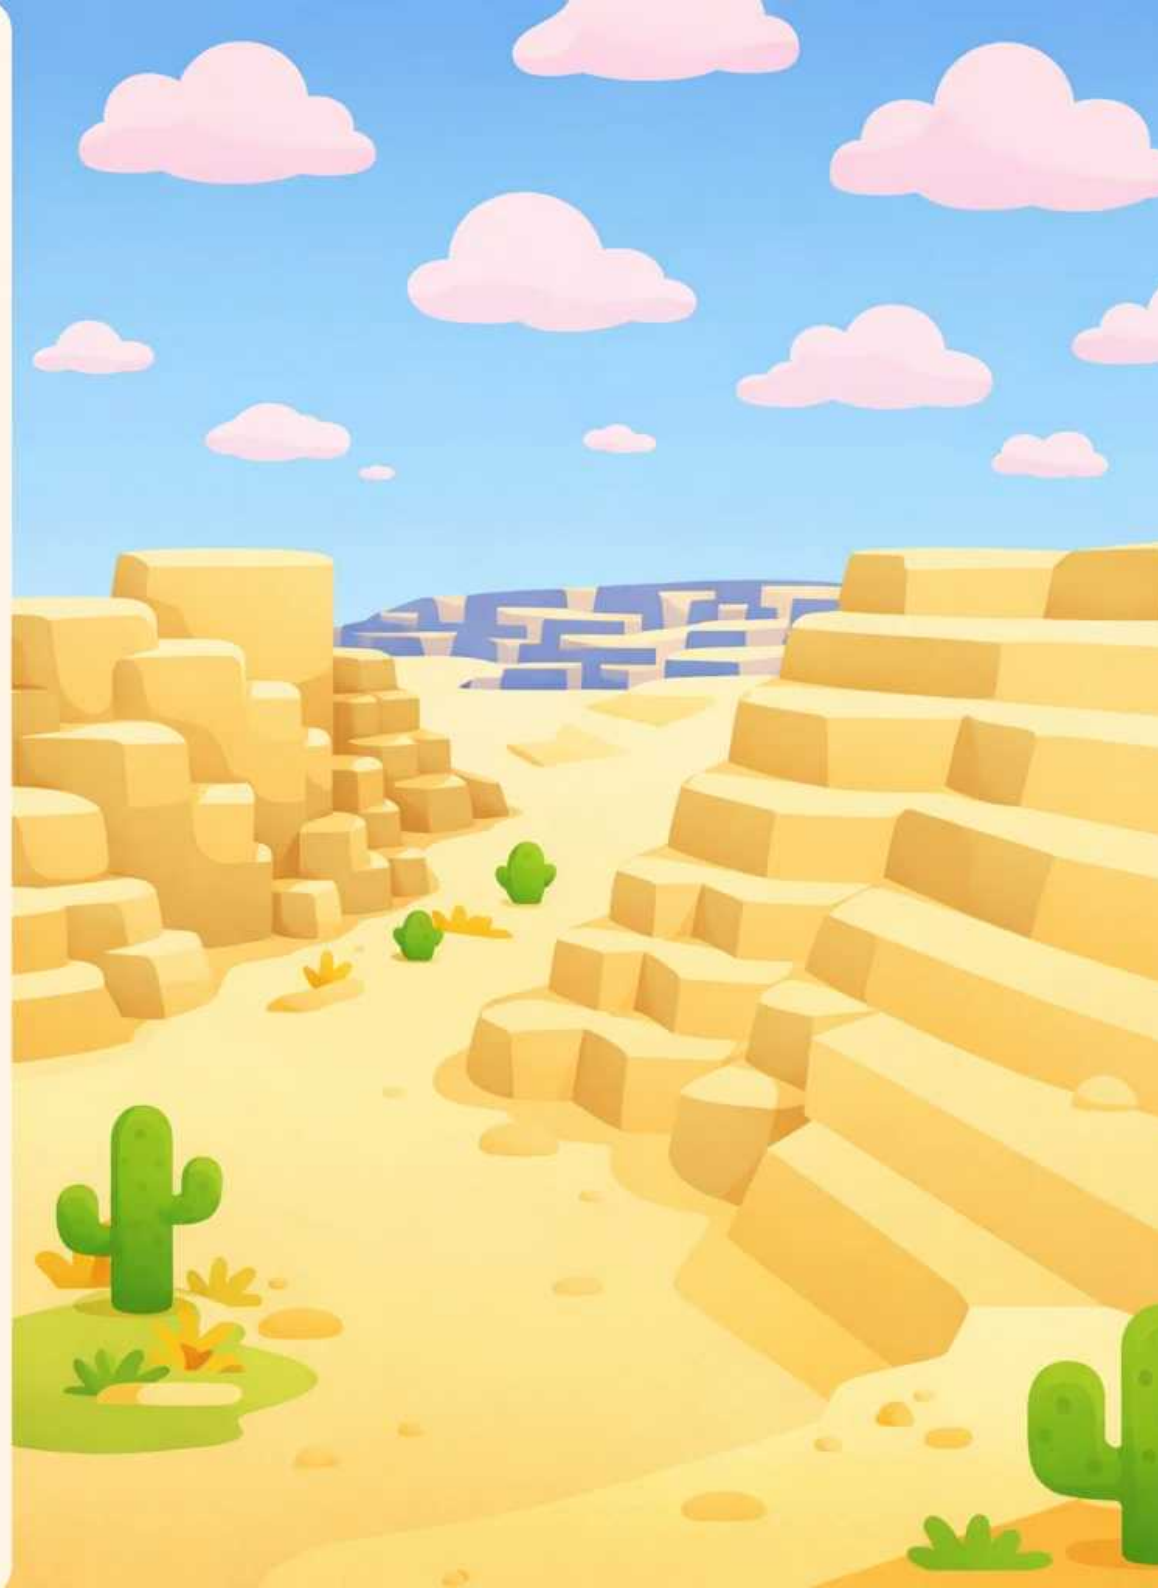

A desert is
a place
where rain is
a rare sight.

Some folks
live here. It
might be
hard, but it
is their way.

If we do not
take care,
more land
might turn to
sand.

Husks at Night

Have you ever wondered what it would be like to wander across a sea of golden sand? Step into the Minecraft desert, where the sun blazes overhead and shimmering dunes stretch on forever. Where do husks and rabbits hide when the heat gets too fierce? What treasures lie buried beneath the sandstone, and what happens once the sun slips away? Discover a biome full of secrets waiting to be explored! This decodable reader practices the 'igh' phonogram in words such as

Reading Skills: <igh>

bright, high, light, lights, might, night, sight, sights

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
