

Panha
Won't
Come Down!

SMOG

Panha lives in a town with a lot of smog. The smog stays all day. There is no sun.

Her dad tells
her that
there used to
be sun back
in his day.

Panha goes
way up high.
A ray of sun
gets past the
smog! Then
the smog
takes it away.

'I must find a way up past the smog!' Panha says. She lays gears on a frame to make a plane.

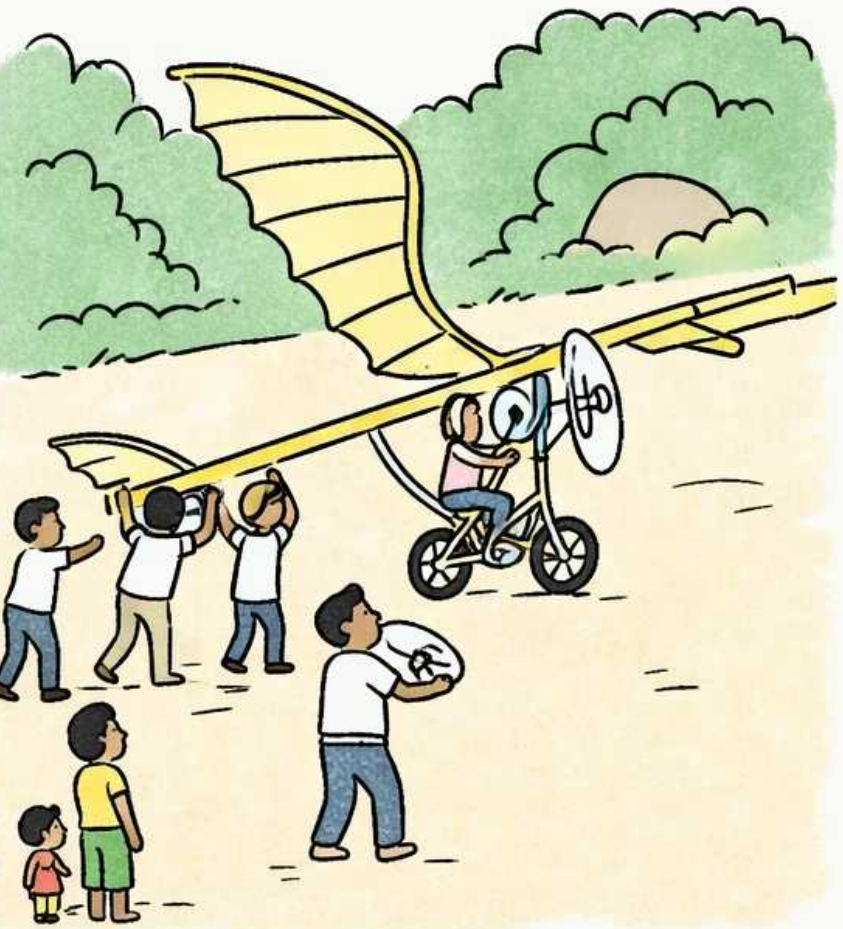

She
makes a
plane, but
it fails and
will not fly
well.

May keeps
at it. She
makes the
plane
strong.

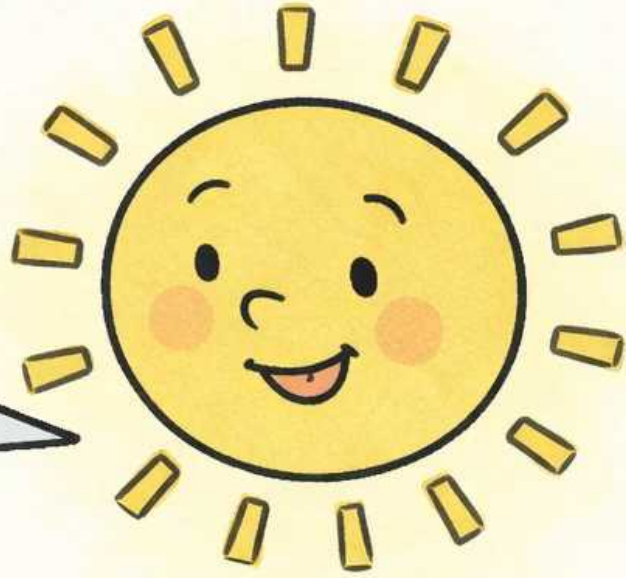

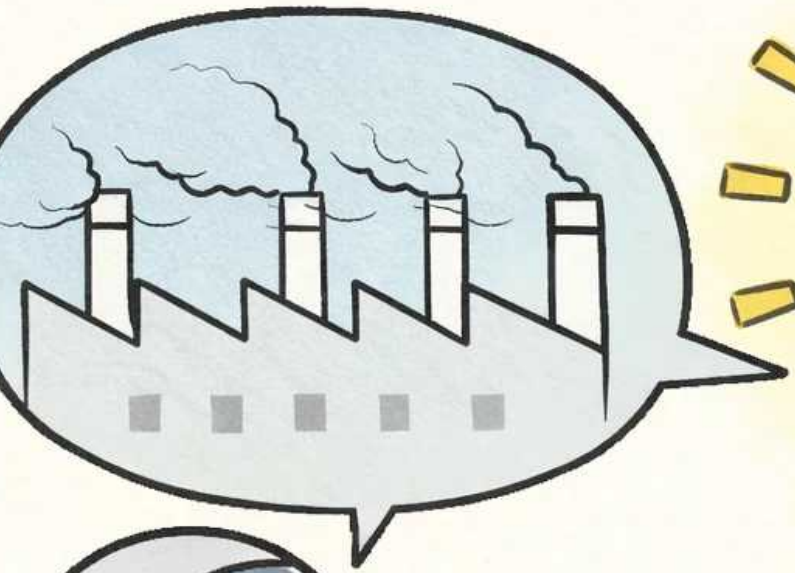

The town waits by the trail. Dad hands May a helmet and says, 'Stay safe.'

From a cliff by
the sea, May
goes up into
the sky. She
waves back at
her dad.

May gets to
the sun! The
sun tells her
that the
smog must
go.

May flies
back down.
The town
gets to work.
They plant
trees and
clean up.

They find
new ways
to do things.

The sun
comes back!

May makes a
big plane.

She will fly to
more towns
to help out.

Panha Won't Come Down!

The sky above May's town is gray, smoggy, and smelly - and she's had enough! What if there's real sunshine hiding up above the clouds? With a pile of gears, a wooden frame, and a head full of big ideas, May sets out to build a plane that can climb higher than the smog. But can a kid really fly all the way to the sun? This decodable reader practices the ai/ay phonogram in words like 'day,' 'stay,' 'waits,' and 'trail.'

Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at www.bookbotkids.com.
