

# WHICH MILK?

An Unofficial Minecraft Book

Zom has a  
new plan to  
make cash.  
What is it?

He buys a  
whole herd  
of cows  
and makes  
a milk bar.

When the  
sun is up,  
he has to  
milk the  
cows.

Zom thinks  
each cow is not  
the same. So  
why is all the  
milk the same?  
It must not be.

When a cow  
is brown, he  
adds  
chocolate to  
the milk.

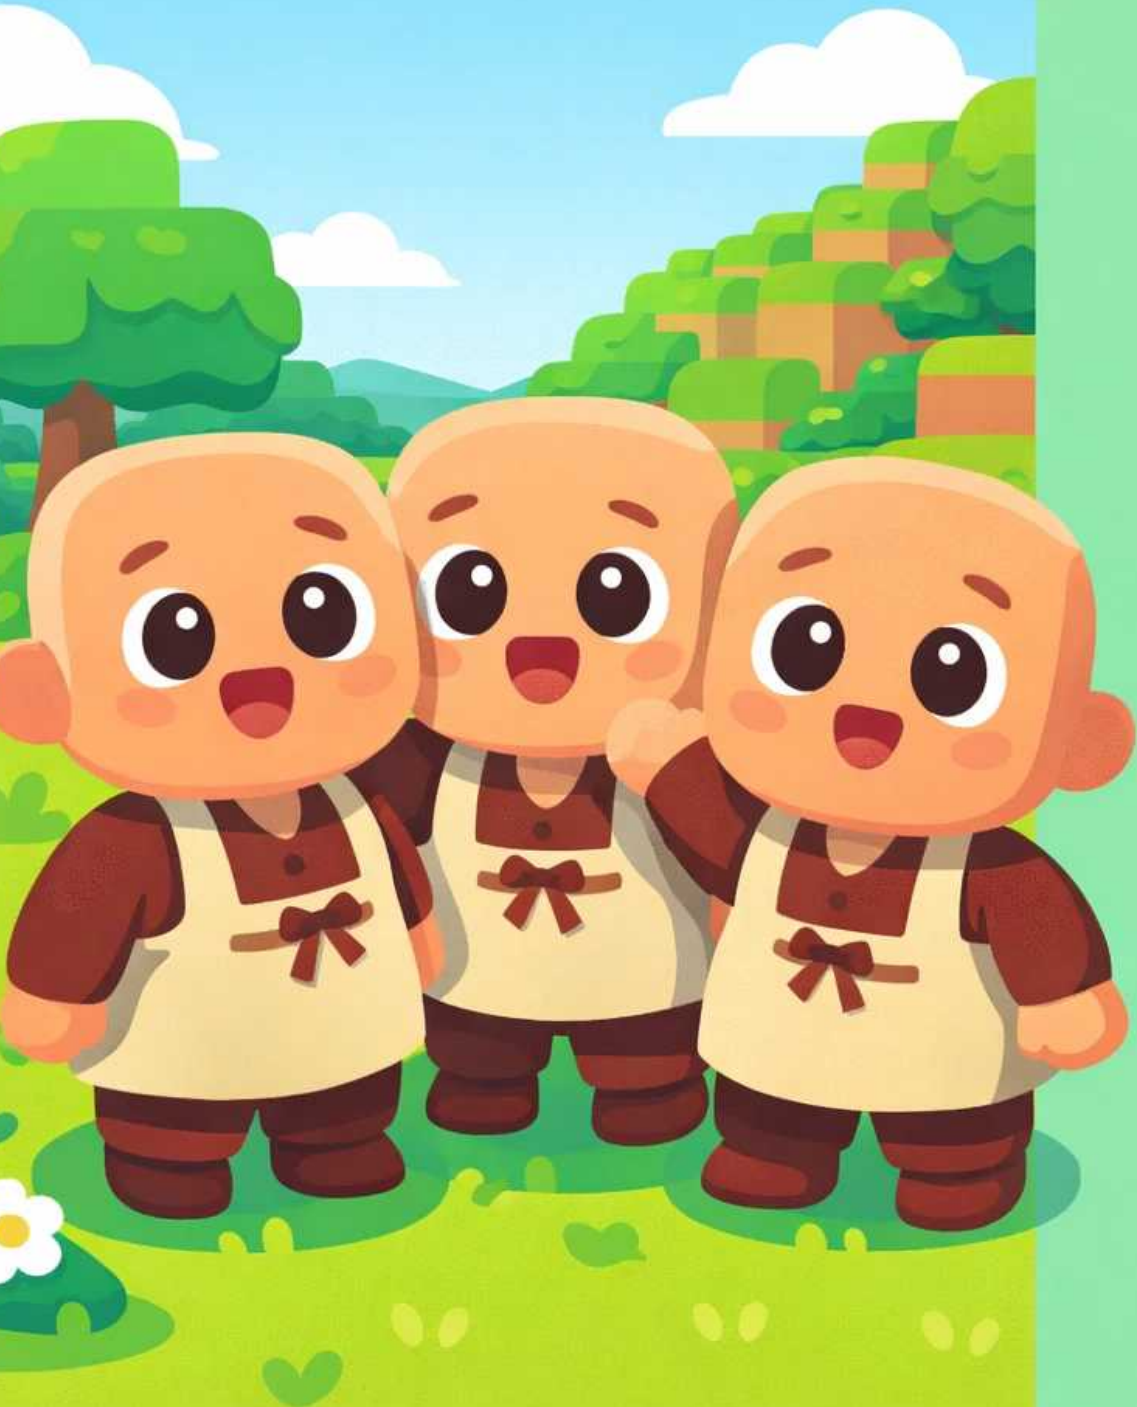

When a cow  
is white, he  
adds vanilla  
to the milk.

He puts pink  
dye on a white  
cow. Then the  
milk has a  
strawberry  
taste.

The villagers  
are here.

Which will  
they try  
first?

Zom has  
mushroom milk  
as well! Oh no,  
Zom... what  
did you make  
it taste like?

Mushroom milk?  
Oh Zom. The  
man runs off in  
a whirl! Now Zom  
has it all, so he  
takes a sip.

## Which Milk?

Zom has a BIG plan to get rich - he's opening his very own milk bar! But why should every cow make the same milk? When the cow is brown, the milk tastes like chocolate. When the cow is white, it's sweet vanilla. And the pink cow? Strawberry, of course! But what happens when Zom reveals his strangest flavor yet? Will the villagers dare to try it? This decodable reader practices the 'wh' sound in words like 'what,' 'when,' 'which,' and 'whirl.'

what, when, which, whirl, white, whole, why

### Learn to read with confidence

The Bookbot app and its carefully designed decodable books help children practise the sounds and words they are learning, building strong phonics and reading skills one step at a time. In the app, children can listen to stories read aloud, follow highlighted words as they are spoken, and read independently when they are ready. Together, the decodable books and oral reading support help develop accuracy, fluency, confidence and a love of reading. Learn more at [www.bookbotkids.com](http://www.bookbotkids.com).
